

## Dizzy? Foggy? In Pain? Your Brain Could Be Asking for Help.

### There's Still Hope.

You've been told to "wait it out," but the exhaustion and dizziness persist. The system has left you feeling unheard, invisible, and frustrated.

At California Brain & Spine Center, Dr. Alireza Chizari specializes in helping patients like you. With expertise in Clinical Neuroscience and years of experience in precision-focused care, he uncovers what others miss and treats the root cause of your symptoms for lasting relief.

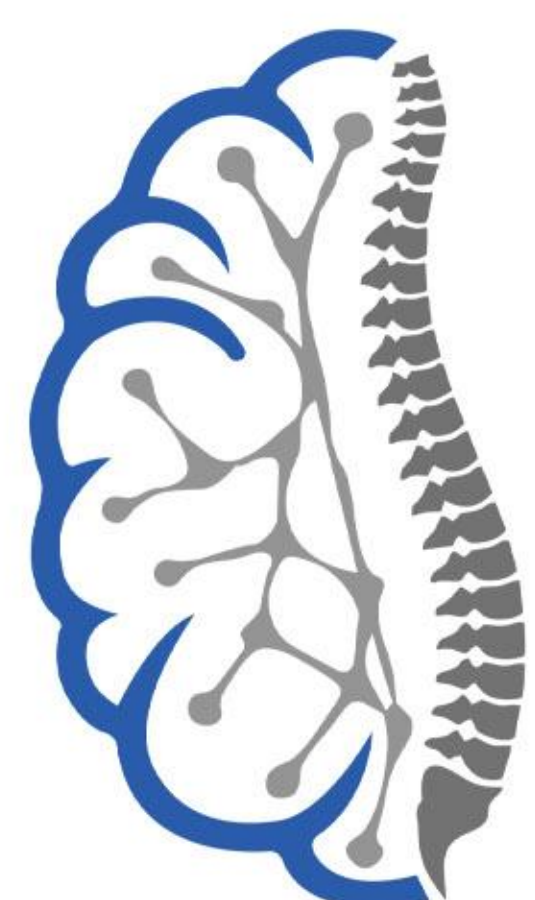

### Why Choose Dr. Chizari?

He Sees What Others Miss:

Combining neuroscience with engineering precision.

He Treats the Root Cause: No quick fixes, just real recovery.

He Fights for You: An advocate for patients in health and justice.
